CULLEOKA.

CULLEOKA, July 12.—Mr. W. F. A. Shaw, one of the oldest citizens of our community, died at his home on the Mooresville pike, Friday night, July 8, 1898. He was a farmer, a member of the Friendship Baptist church, and highly respected by all who knew him. During the winter he was attacked by a horse, and was so crippled that he was never able to exercise his limbs afterwards. He was buried at the family grave-yard, and the funeral exercises were conducted by Rev. T. T. Thompson.

The same night Mr. and Mrs. John Davis gave up to Him that giveth it to them their little child, and on Saturday it was buried at Friendship. Old age and youth together were called away; together they took their departure from earth, in heaven they are together; but no feeble old age, no suffering youth is recognized there; all are bright and beautiful and joyous. Then why should we mourn for them?

A LAY SERMON.

Ye gentlemen who serve the British drama With all the wit and wisdom of your pen, Who from a highly cultivated Karma Evolve your views of manners and of men,

I would but ask, as one whom off an order Admits, a worshiper within your fane, Why by degrees your plays are growing broad and true?

(I trust the word sufficiently explains.)

Has decency so far gone out of fashion That ye must needs, to catch the English folk, Dip for your plots in troubled pools of passion And bait your lines with spicy equivocal?

Why are your personages so full blooded? Why nail such scarlet colors to your mast And hold aloft as "she who must be studied" The body of the apostrophe past?

—Cotford Dick in "The Ways of the World."

Self Reliance.

Henry Ward Beecher used to tell this story of the way in which his teacher of mathematics taught him to depend upon himself.

"I was sent to the blackboard and went, uncertain, full of whimpering.

"That lesson must be learned," said my teacher in a very quiet tone, but with a terrible intensity. All explanations and excuses he trod underfoot with utter scornfulness. 'I want that problem. I don't want any reasons why you haven't it,' he would say.

"I did study two hours."

"That's nothing to me. I want the lesson. You need not study it at all, or you may study it ten hours, just to suit yourself. I want the lesson."

"It was tough for a green boy, but it seasoned me. In less than a month I had the most intense sense of intellectual independence and courage to defend my recitations."

"One day his cold, calm voice fell upon me in the midst of a demonstration, 'No!'"

"I hesitated and then went back to the beginning, and on reaching the same point again 'No!' uttered in a tone of conviction, barred my progress."

"The next" and I sat down in red confusion.

"He, too, was stopped with 'No!' but went right on, finished, and as he sat down was rewarded with 'Very well.'"

"Why," whimpered I, "I recited it just as he did, and you said 'No!'"

"Why didn't you say 'Yes' and stick to it? It is not enough to know your lesson; you must know that you know it. You have learned nothing till you are sure. If all the world says 'No!' your business is to say 'Yes' and prove it." — Good Stories.

Looking Indian.

Somebody dropped a stickpin in the hall the other day and had hard work to find it. She hunted high and low, and on her hands and knees, and with a candle specially procured for the purpose, but it was no use; the pin was very tiny and unperceivable, its value being that of association rather than size or brilliancy. The somebody, after a final shake of the rugs, was just about to give it up forever when one of the children chanced to come along.

"Why don't you look 'Indian' for it?" he asked. Before the somebody realized what was meant down dropped the youngster on the floor, his head and his whole body lying sidewise and just as close to the dead level as possible. In this position his eyes roved rapidly over the floor. "I have it," he shouted presently, and sure enough, right in the middle of the floor, in so plain a place that it had escaped notice, was the missing stickpin. The youngster then explained that "looking Indian" meant putting the head to the ground in order to catch sight of the smallest object between oneself and the horizon. "They do it on the plains all the time," he said. "That's why they can always tell who's coming. But it works in houses just as well as on the plains. Why, we never lose anything in the nursery nowadays—we just 'look Indian' and find it right off." — New York Sun.
